FISCAL ANALYSIS

ASSUMPTION

Officials from the **Department of Elementary and Secondary Education (DESE)** assume the proposal would result in no significant impact to DESE or local public school districts.

Officials from the **Department of Social Services** assume the proposal would result in no fiscal impact to the agency.

Officials from the **Department of Health (DOH)** assume there would be only a minor fiscal impact for the organ donation program out of DOH. DOH incurred some initial costs with the printing and mailing of the curriculum. Any updating of the curriculum in future years or further printing of the curriculum would be expected.

<u>FISCAL IMPACT - State Government</u>	FY 2001 (10 Mo.)	FY 2002	FY 2003
	\$0	\$0	\$0
<u>FISCAL IMPACT - Local Government</u>	FY 2001 (10 Mo.)	FY 2002	FY 2003
	\$0	\$0	\$0

FISCAL IMPACT - Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

DESCRIPTION

School districts maintaining grades nine and ten could teach students in either grade one unit of instruction on organ and tissue donor and transplantation programs. No student would be required to take the course if a parent or guardian would file written objection to the program. The Department of Elementary and Secondary Education would make information available to school boards that could be used by the district to develop the unit of instruction.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
